

Providing confidence in an uncertain world

Global financial markets have become increasingly volatile and unpredictable. As experienced and trusted professional advisors, we assist our clients in identifying and managing their exposure and risk to foreign exchange, debt and liquidity, interest rates, fixed interest investment and commodity prices. We do this within a framework of prudential governance and robust analysis; leading to successful financial management decisions and outcomes. Some of our recent work includes:

Heartland New Zealand Limited
Retained Treasury Advice
April 2014

Ports of Auckland Limited
