

PwC Foundation

On Board programme

Why have the PwC Foundation created this programme?

As professionals, we have a role to play in **driving social change** across New Zealand. PwC On Board **bridges the gap between corporate New Zealand and the NFP sector**; between our people and their communities. This programme is a very practical way of bringing our firm's purpose to life to **build trust in society and solve important problems**.

The programme encourages our partners and staff to seek opportunities in organisations they're passionate about. They're able to **use their professional skills to give back to the community**, broaden their governance knowledge and networks, and contribute towards building more sustainable organisations in society. For the NFPs they serve, they access the time, talent and networks of a range of professionals.

What is the PwC On Board programme?

The PwC On Board programme Connects our people to **not-for-profit board opportunities**. PwC On Board aims to provide support to our people across the firm who would like to secure a board or advisory role with a not-for-profit (NFP).
