

PwC On Board

Connecting our people to not-for-profit board opportunities

PwC On Board aims to provide support to our people across the firm who would like to secure a board or advisory role with a not-for-profit (NFP).

As professionals, we have a role to play in driving social change across New Zealand. PwC On Board bridges the gap between corporate New Zealand and the NFP sector; between our people and their communities. This program is a very practical way of bringing our firm's purpose to life to build trust in society and solve important problems.

The program encourages our partners and staff to seek opportunities in organisations they're passionate about. They're able to use their professional skills to give back to the community, broaden their governance knowledge and networks, and contribute towards building more sustainable organisations in society. For the NFPs they serve, they access the time, talent and networks of a range of professionals.
